## Exercise Sheet 5

Fill the gaps in the following recipe:

### PAVLOVA

#### Ingredients:

*for the meringue:*

6 egg \_\_\_\_\_

1 pinch \_\_\_\_\_

340 g caster sugar

1 1/2 tspn vanilla essence

1/2 to 1 tbspn cornstarch

*for the \_\_\_\_\_:*

whipped cream

1 punnet \_\_\_\_\_

or:

1/2 cup \_\_\_\_\_ pulp

powdered sugar

#### Method:

\_\_\_\_\_ the egg whites with a \_\_\_\_\_ at maximum speed until they form peaks (a pinch of salt helps).

\_\_\_\_\_ the sugar and add 1–2 tbspn at a time to the egg whites while continuing to beat at maximum speed until no sugar remains. Check the \_\_\_\_\_ of the mixture between thumb and \_\_\_\_\_ – if it is still grainy, continue beating until the mixture is creamy and \_\_\_\_\_. Add the vanilla essence and the cornstarch and \_\_\_\_\_ in.

| fold | forefinger | sift | beat | consistency | mixer |  
| strawberries | salt | passionfruit | whites | stiff | topping |

On a sheet of baking paper draw a circle of 18 cm diameter in pencil. Lay the baking paper upside down on an \_\_\_\_\_ baking tray. \_\_\_\_\_ the egg white and sugar mixture onto the circle, using a spatula to shape the meringue, building up the \_\_\_\_\_ so they are higher than the centre.

Place in the \_\_\_\_\_ part of the oven and bake at 130°C for 1 hour and 15 minutes or until the \_\_\_\_\_ of the meringue is firm. Turn off the oven and let the meringue \_\_\_\_\_ slowly in the oven until it reaches room temperature.

It is better to bake the meringue slowly at a \_\_\_\_\_ temperature than quickly at a \_\_\_\_\_ temperature. If it is baked too quickly, little pearls will form on the outside; if it is baked too slowly, \_\_\_\_\_ will leak from the underside.

It is a good idea to make the meringue several hours beforehand in case the first attempt is \_\_\_\_\_.

Just before serving, \_\_\_\_\_ the cream and spoon it onto the meringue, then decorate with the strawberries or passion-fruit. \_\_\_\_\_ some powdered sugar on top and the pavlova is complete.
